

Warwick Hangers Spring Nut

A faster and easier way to apply a spring nut to strut.

Warwick Hangers Spring Nut is time saving and uses the spring as an applicator. It allows one nut to be used for both size strut (1-5/8" x 1-5/8" or 1-5/8" x 13/16") and there's less frustration on untangling long springs in package before using.

Apply in Three Easy Steps

With Coil End to the left

Simply pinch spring between finger

Place in strut and twist

Clear access through

1-5/8" x 1-5/8" Strut Channels

Spring no longer slips through

slotted channel

Tangle free
